Ishawari, Saie Patil Cs M...

- 4 June 2021
- will help to prevent living being from getting in contact with infectious masks.
 - will help in reducing throwing of masks at any place
 - used masks will not be eaten by other animals which may infect them or cause stomach problem
 - proper recycle
 - social awareness of harmful impact of masks
 - earning money from waste masks will help economically
 - The bricks made from the masks is cheap and strong than normal bricks

#Disadvantage:

- Will require initial expense for separate mask dustbins.
- Will require extra precaution for collecting masks separately without strings & blood stains on masks.
- storing masks at residential area for too long may cause spreading of contaminants.
- Will have to aware people of proper collection of masks.

Brick 2.0

PPE FACE MASK CONVERSION INTO ECO BRICKS.

We are happy to announce that now we can Recycle PPE Face masks and convert them into Brick 2.0. To collect this waste we have launched a subscription program for private and corporates to get these boxes. We are also open to collaborations for other countries so please share your interest with us by filling the form below.
